If BCR is unable to reuse the Client's hard drives to copy the recovered data too, the Client will be responsible to supply or purchase from BCR a suitable Hard Drive or Drives to return to the client with the recovered data.

Raid Data Recovery Agreement - PAGE 2

RECONFIGURATION OF NAS RAID DEVICE

If the Client chooses to send the NAS device with the array and would like the device reconfigured after the data is recovered, BCR will reconfigure the original drives and transfer Client's recovered Data to the device at a flat of \$250 per NAS Device. If Client's original hard drives are unusable, the Client will be responsible for the Cost of New Hard Drives.

EXPEDITE, HOLIDAY AND WEEKEND RATES

BCR 's Flat Rate as quoted above is our only rate. We do not up charge for holidays, weekends nor expedited services. All Raid arrays are set up to a dedicated Recovery computer upon arrival to our facilities. **We treat each Raid recovery as an Expedite case.**

SETUP / INSPECTION FEE

There is no set up nor inspection fees for our Raid Array Recovery Services.

LIABILITY

The CLIENT fully understands that their hard drives and or Raid Array has failed or is damaged. The CLIENT fully understands that some or all of their data may have been damaged or destroyed by this failure. BCR will use its "best efforts" to recover all of the CLIENTS data. BCR assumes no liability for lost or damage data. Client further understands that BCR may void the Hard Drive manufactures warranty by opening the Hard drive for recovery. Although most Hard Drive Manufactures will still warrant the hard drive after service by a Data Recovery company, BCR assumes no liability for replacement of the Clients Hard Drives.

This constitutes the entire agreement for the requested data recovery by the CLIENT and BCR.
